

TE Curve Verification Pipeline Familywise ONNX Report - rcim_track1

TE Curve Verification Familywise ONNX Diagnostics

Styled PDF edition generated from the canonical Markdown analysis report for improved readability, section hierarchy, and table presentation.

Overview

This report evaluates `rcim_track1` paper-reference model-bank archives. Each surface loads the selected harmonic amplitude/phase ONNX components from `models/`, reconstructs full TE curves, and compares those curves against dataset-matched held-out measured TE traces.

Unlike standard familywise model-development exports, `rcim_track1` uses a component bank rather than one ONNX file per surface. The surface tables therefore list archive roots and inventory paths; every exact component ONNX and Python path is recorded in the component inventory CSV. The surface path table intentionally uses archive-root glob patterns because one `rcim_track1` surface is assembled from 19 component ONNX models rather than from a single surface-level ONNX file.

Output Artifacts

- output directory: `output/validation_checks/track2_familywise_onnx_report/rcim_track1/2026-07-19-15-08-46__track2_rcim_track1_familywise_onnx_report` ;
- summary YAML: `output/validation_checks/track2_familywise_onnx_report/rcim_track1/2026-07-19-15-08-46__track2_rcim_track1_familywise_onnx_report/track2_familywise_onnx_report_summary.yaml` ;
- model inventory CSV: `output/validation_checks/track2_familywise_onnx_report/rcim_track1/2026-07-19-15-08-46__track2_rcim_track1_familywise_onnx_report/model_inventory.csv` ;
- component model inventory CSV:
`output/validation_checks/track2_familywise_onnx_report/rcim_track1/2026-07-19-15-08-46__track2_rcim_track1_familywise_onnx_report/component_model_inventory.csv` ;
- per-curve metrics CSV: `output/validation_checks/track2_familywise_onnx_report/rcim_track1/2026-07-19-15-08-46__track2_rcim_track1_familywise_onnx_report/per_curve_metrics.csv` .

Simplified Dataset + Setpoints

- dataset: `simplified_dataset` ;
- input mode: `setpoints` ;
- evaluated family: `rcim_track1` ;
- dataset root: `data/simplified_dataset` .

Models Used

Surface	Run Name	Run Instance	Dataset Schema
forward	<code>rcim_track1_simplified_setpoints_forward</code>	<code>historical_simplified_rcim_track1_component_winner_bank</code>	<code>simplified_curve_v1</code>
backward	<code>rcim_track1_simplified_setpoints_backward</code>	<code>historical_simplified_rcim_track1_component_winner_bank</code>	<code>simplified_curve_v1</code>

Exact model paths

Surface	ONNX Model Path	Python Model Path
forward	<code>models/simplified_dataset/paper_reference/rcim_track1/forward/*/onnx/*/*.onnx</code>	<code>models/simplified_dataset/paper_reference/rcim_track1/forward/*/python/*/*.py</code>
backward	<code>models/simplified_dataset/paper_reference/rcim_track1/backward/*/onnx/*/*.onnx</code>	<code>models/simplified_dataset/paper_reference/rcim_track1/backward/*/python/*/*.py</code>
global	<code>not available in archive</code>	<code>not available in archive</code>

Aggregate Metrics

Surface	Curves	MAE[deg]	RMSE[deg]	Mean Error [%]	P95 Error[%]
forward	97	0.113298	0.113311	249.235	361.796
backward	97	0.004107	0.004324	9.385	22.179

Offset And Shape Metrics

Surface	Signed Offset [deg]	Absolute Offset [deg]	Centered MAE [deg]	P2P Error [deg]
forward	0.113298	0.113298	0.001044	0.004022
backward	0.001922	0.003809	0.001066	0.003162

Unavailable surfaces

- `global` : no archive exists under the dataset-matched `paper_reference/rcim_track1` root.
